1. Educational programs and activities

Since the foundation of AHDR in 2003, our teams have undertaken research, prepared publications and organized hundreds of events, workshops, and educational walks across the divide in Cyprus. Drawing on this experience, we can offer a range of educational opportunities for local and international visitors in history education, peace education, anti-racist education and positive conflict transformation through the arts and culture.

Meet the AHDR, H4C and the walled town of Nicosia.
